"Understanding Through Education"

A BRIEF HISTORY

In 1982, an experimental English-Chinese language program was introduced at the kindergarten level in Edmonton public schools. The success of this initiative led to the formal establishment of the English Chinese bilingual program in 1983 in the Edmonton public school system at Kildare and Meyonohk schools.

The Chinese language arts program was approved by the Edmonton Public School Board in January 1989 to a junior high level which began at Ottewell Junior High School. In 1992 the senior high level was approved and the program was established in McNally Senior High School.
